

Muhammad Majid Ahmad

Python Developer | AI Researcher | Automation Expert

📍 Bahawalpur, Pakistan | ✉ heresmajid@gmail.com | 📞 +92 305 7822724

About Me

I am a BS Artificial Intelligence graduate from Islamia University Bahawalpur (2021–2025), with a strong passion for building intelligent, real-world systems that combine automation, machine learning, and NLP.

Over the past few years, I have developed advanced solutions in Python for web scraping, data extraction, AI-based video processing, and business automation. My journey includes academic research, freelancing success, mentoring students, and delivering enterprise-level automation projects across platforms like YouTube, Amazon, TikTok, and Instagram.

My Journey in Brief

- 💡 Started with basic Python automation → progressed to full-stack AI-driven solutions
 - 📊 Completed multiple client projects in data scraping, analysis, and visualization
 - 🤖 Researched Explainable AI, NLP fairness, and intelligent assistants in my final year
 - 🏆 Recognized as a Top Rated Python Developer on Upwork & Level 2 Seller on Fiverr
 - 👨‍🎓 Taught Advanced Python Programming at DevCastle under NAVTTC
 - 🌍 Now seeking a fully funded Master's degree abroad in AI/ML with research focus
-
